

Steps to find the code for EBOSS in Azure Portal:

- Sign into Azure
- Go to Azure Subscription
- Go to App Services
- Go to Culture -wireless
- Go to Files
- Index.js

index.js File Code:

```
require("dotenv").config();
var express = require("express");
const axios = require("axios");
var cors = require("cors");
var bodyParser = require("body-parser");
const router = express.Router();

const app = express();
app.use(cors());
app.use(bodyParser.json());
app.use(bodyParser.urlencoded({ extended: true }));

const whitelist = [
  "https://culture-wireless-3f8aab.webflow.io",
  "https://www.goculturewireless.com",
];

function removeSpecialCharacters(phoneNumber) {
  // Use a regular expression to remove special characters
  return phoneNumber.replace(/[+\\(\\)\\-\\s]/g, "");
}

const corsOptions = {
  origin: function (origin, callback) {
    if (whitelist.indexOf(origin) !== -1) {
      callback(null, true);
    } else {
      callback(new Error("Not allowed by CORS"));
    }
  }
}
```

```
},  
};
```

```
router.get("/", function (req, res) {  
  return res.json({ foo: "bar jhone doe 1" });  
});
```

```
router.post("/api/v1/service_order_Create", async function (req, res) {  
  var data = JSON.stringify(req.body);
```

```
  
  var configAccount = {  
    method: "post",
